Summary

Motivated and detail-oriented Cybersecurity and Ethical Hacking graduate with a strong foundation in network security, vulnerability assessment, and penetration testing. Experienced with security tools such as Nmap, Metasploit, Burp Suite, and Wireshark. Proficient in Linux and Windows environments with basic scripting skills in Python and Bash.

Certifications

Cybersecurity and Ethical Hacking Training Fortune Cloud Technology Nov 2025 – Apr 2026

Penetration Testing and Ethical Hacking Great Learning Nov 2025

Technical Skills

Networking: Routing and Switching, TCP/IP, OSI Model, IP Addressing, Subnetting, DNS, DHCP, HTTP/HTTPS, router/switch configuration, troubleshooting with Wireshark and Nmap

Cyber Security: Network Security, Vulnerability Assessment, Penetration Testing Basics, Web Application Security

Tools: Nmap, Metasploit, Burp Suite, Kali Linux, Windows

Scripting: Python, Bash

Projects

- **Advanced Network Security Assessment Tool (Python)** Developed a Python-based tool to scan networks for open ports, active services, operating systems, and potential vulnerabilities. Automated security analysis and reporting to help identify risks and strengthen defenses in authorized environments.
- **Web Application Vulnerability Assessment and Penetration Testing (VAPT)** Assessed DVWA and OWASP Juice Shop for vulnerabilities using Nmap, Burp Suite, and OWASP ZAP. Identified SQL Injection and XSS issues, and prepared detailed risk reports.
- **Automated Network Scanner (Python)** Built a Python-based scanner using Nmap and socket programming to detect open ports, hosts, and services. Generated structured reports for proactive protection.

Education

B.Sc. Computer Science

Swami Ramanand Teerth Marathwada University, Nanded
Matrabhoomi Mahavidyalaya, Udgir

CGPA: 8.22 (Grade: A+)

Higher Secondary School

Maharashtra State Board of Secondary and Higher Secondary Education, Pune
Vivek Vardhini Mahavidyalaya, Deoni

Percentage: 81.50%
